

Disposal of Motor Vehicles

Contract 603 provides for the disposal of motor vehicles, including trucks, in the Sydney metropolitan and regional areas of NSW. The Contract includes extremely competitive arrangements that have been negotiated with Manheim and Pickles - two of the country's biggest auction houses. The contract now has a major secondary feature - transportation to auction, as well as between work sites even when not selling your car.

Manheim is the contractor for the Sydney metropolitan area, based at Moorebank, while Pickles manages the disposal of motor vehicles in regional areas on behalf of the NSW Government. The NSW Government supports the establishment of motor vehicle auction facilities in regional NSW, which allows the many agencies based outside Sydney to sell their vehicles locally, saving on transportation costs alone. The regional motor vehicle auctions, which are well spread and managed by Pickles, are at Tamworth, Dubbo, Wagga Wagga, Canberra and Newcastle.

KEY BENEFITS

- Eliminates the need to obtain multiple quotes from local dealers
- Mandatory requirements like pink slips and other compliance requirements can be managed
- Probity rich process, allowing an independent provider to sell the vehicle on your behalf
- Pick up and delivery service to and from auction facility when it comes time to dispose of your vehicle and general transportation between work sites
- Savings on seller's fees - negotiated fixed pricing
- Online 'simulcasting', an online form of bidding
