

Maintenance of Fire Extinguishing Equipment and Provision of Professional Services

This State Contract compliments State Contract 293 by providing maintenance and professional services in relation to fire extinguishers and ancillary equipment. Utilising this contract will ensure that your sites are compliant and meeting statutory requirements. This new maintenance contract also includes a provision for training and advice.

KEY BENEFITS

- Maintenance of fire extinguisher equipment in line with statutory requirements
- Access to block plans and evacuation details
- An efficient compliance reporting tool via a new online data management system called FireWeb
- Train your staff with online programs as well as localised on-site training
- Professional advisory services will help you manage your sites and assess fire-related risks and processes

PRODUCTS & SERVICES

- Maintenance includes the inspection, pressure testing, tagging, asset and data collection, and reporting of fire extinguishers and ancillary equipment
- Repair services to equipment
- Supply and installation of block plans indicating locations of fire protection equipment and evacuation information
- Professional advisory services and risk assessments

- Training services on the use of extinguishers, evacuation procedures, fire prevention, and warden training
- Use of the FireWeb system for reporting and compliance purposes

Note: There is a separate contract for supply of Fire Extinguisher equipment. Please see State Contract 293 for more details.
