

Retail Supply of Electricity Metering and Metering Data (Large Sites)

State Contract 778 offers exclusive supply of electricity metering and data agency services to NSW Government Large Sites and to all sites of eligible customers situated across NSW and ACT. This contract compliments Contracts 777 and 777a for the retail supply of electricity and customers should take advantage of the savings by transferring the metering component of Contracts 777 and 777a to the new stand alone Contract 778.

The contract covers the provision, installation, servicing, maintenance and inspection of metering equipment, plus meter reading, data validation and data forwarding to relevant entities in accordance with the National Electricity Rules.

KEY BENEFITS

- Lower costs of electricity metering and associated services.
- Improved data accuracy and availability.
- Less interruption to business if change to electricity retailer.
- The supplier (Testing & Certification Australia) will provide data on meters joining or exiting the contract and consumption reports to customers every month at no cost.
- The supplier offers WebGraphs to help customers better manage their energy consumption. By providing internet access to consumption data, WebGraphs can provide detailed reporting on areas such as electricity consumption, CO2 emissions and power quality. Daily data updates allow consumers to immediately see the benefits of any energy saving initiatives or identify areas for improvement.

PRODUCTS & SERVICES

- Provision, installation, servicing, maintenance and inspection of metering equipment.
- Meter reading.
- Data validation and data forwarding to Australian Energy Market Operator (AEMO) in accordance with the National Electricity Rules.

CONTRACT PERIOD

1 August 2009 to 31 July 2014
