

Rainwater Tank Systems

The Rainwater Tank Systems contract provides the supply and installation of a range of rainwater tank systems to assist agencies in the harvesting of rainwater and achieving genuine environmentally sustainable solutions. Polyethylene and treated steel tanks of varying capacities are available.

As the suitability of the type and capacity of tank may vary due to site location, customers are encouraged to initially consult with the service providers to determine the system that best suits their needs prior to requesting a quotation.

KEY BENEFITS

- A complete end to end solution for the supply and installation of polyethylene and treated steel tanks
- Competitive prices
- Multiple suppliers across all NSW Regions
- Supports NSW Government Sustainability Policy

PRODUCTS & SERVICES

The contract allows for a complete solution covering the supply, installation, testing, commissioning and warranty of rainwater tank systems. The contract does not cover the purchase of tanks only.

Supply and installation of polyethylene and treated steel tanks with tank capacity of the following nominal capacity sizes are available:

- 5,000 litres
- 10,000 litres
- 20,000 litres
- 50,000 litres

Optional items to suit customer requirements including pumps, backflow prevention devices, filters, connections and maintenance schedules are available.

CONTRACT PERIOD

Three (3) year term expiring on 31 May 2012

With two additional extension options of twelve months each that can be exercised by mutual agreement between the suppliers and the State Contracts Control Board.

HOW TO PURCHASE

Registered state contract users can order goods and services direct with the supplier. Rainwater tanks cannot be purchased online in smartbuy®.
